

Course Outcomes Questionnaire

**Department of Civil and Environmental Engineering
University of Houston**

Course Number: CIVE 3331 Semester: Spring 2005

Section: 12771 Instructor's Last Name: Cleveland

Please check the appropriate box for this course:

The instructor made the learning objectives for this course clear at the beginning of the semester.

- Yes No, but he/she did so indirectly during the course No Not sure

The instructor clearly posted the numbered course learning objectives at the end of the semester when I completed this form.

- Yes No Not sure

Please check the appropriate box for each numbered learning objective that applies to this course:

Objective 1: To teach students about current issues in environmental engineering and how to find regulatory, policy, and mitigation information using internet, library, and popular media sources.

In my judgment I have acquired the knowledge or skill inherent in this objective.

- Yes Partly No Not Sure

Objective 2: To teach students essential concepts used in management, treatment and mitigation of pollutants.

In my judgment I have acquired the knowledge or skill inherent in this objective.

- Yes Partly No Not Sure

Objective 3: To teach students fundamental problem solving and design concepts used in environmental engineering.

In my judgment I have acquired the knowledge or skill inherent in this objective.

- Yes Partly No Not Sure

Commentary.

Please write any constructive comments that you wish to make relative to the achievement of course objectives in the space below. Please note that these comments will not be retyped and may be provided to your instructor as a means of fostering improvements to the course.

Thank you.
